Plan conditions

Water sharing plan

Macquarie Bogan Unregulated and Alluvial Water Sources

Take of water

MW0112-00001

The maximum water allocation that may be carried over in the account for this access licence from one water year to the next water year is:

- A. a volume equal to 100 % of the share component of the licence, or
- B. 1 ML/unit share of the share component of the licence.

MW0005-00002

From 4 October 2012 until 30 June 2015, the total volume of water taken under this access licence in these three (3) water years must not exceed a volume equal to:

- A. 50 % of the water in the account from the available water determination in the first water year (4 October 2012 until 30 June 2013), plus
- B. the sum of water in the account from the available water determinations in the second and third water years, plus
- C. any net amount of water either assigned to or from the account under a water allocation assignment in those 3 water years, plus
- D. any water re-credited by the Minister to the account in those 3 water years.

MW0605-00001

Water must be taken in compliance with the conditions of the approval for the nominated work on this access licence through which water is to be taken.

MW0036-00001

The volume of water taken in any three (3) consecutive water years from 1 July 2013 must be recorded in the logbook at the end of those three water years. The maximum volume of water permitted to be taken in those years must also be recorded in the logbook.

MW0658-00001

If water is taken from an off-river pool, then water must only be taken from the pool when the volume of water in the pool exceeds the full capacity of that pool.

MW0004-00001

From 1 July 2013, the total volume of water taken in any three (3) consecutive water years under this access licence must not exceed a volume which is equal to the lesser of either:

A. the sum of:

- i. water in the account from the available water determinations in those 3 consecutive water years, plus
- ii. water in the account carried over from the water year prior to those 3 consecutive water years, plus
- iii. any net amount of water assigned to or from this account under a water allocation assignment in those 3 consecutive water years, plus
- iv. any water re-credited by the Minister to the account in those 3 consecutive water years,

or

B. the sum of:

- i. the share component of this licence at the beginning of the first year in those 3 consecutive water years, plus
- ii. the share component of this licence at the beginning of the second year in those 3 consecutive water years, plus
- iii. the share component of this licence at the beginning of the third year in those 3 consecutive water years, plus
- iv. any net amount of water assigned to or from this account under a water allocation assignment in those 3 consecutive water years, plus
- v. any water re-credited by the Minister to the account in those 3 consecutive water years.

MW0548-00001

If water is taken from an in-river pool, then water must only be taken from the pool when the volume of water in the pool exceeds the full capacity of that pool.

Monitoring and recording

MW2338-00001

The completed logbook must be retained for five (5) years from the last date recorded in the logbook.

MW2336-00001

The purpose or purposes for which water is taken, as well as details of the type of crop, area cropped, and dates of planting and harvesting, must be recorded in the logbook each time water is taken.

MW2337-00001

The following information must be recorded in the logbook for each period of time that water is taken:

- A. date, volume of water, start and end time when water was taken as well as the pump capacity per unit of time, and
- B. the access licence number under which the water is taken, and
- C. the approval number under which the water is taken, and
- D. the volume of water taken for domestic consumption and/or stock watering.

MW0027-00006

The volume of water taken from 4 October 2012 until 30 June 2015 must be recorded in the logbook at the end of 30 June 2015. The maximum volume of water permitted to be taken in those water years must also be recorded in the logbook. The first water year is from 4 October 2012 until 30 June 2013.

MW2339-00001

A logbook must be kept, unless the work is metered and fitted with a data logger. The logbook must be produced for inspection when requested by DPI Water.

MW0051-00002

Glossary

Reporting

Once the licence holder becomes aware of a breach of any condition on this access licence, the licence holder must notify the Minister as soon as practicable. The Minister must be notified by:

A. email: water.enquiries@dpi.nsw.gov.au,
or

B. telephone: 1800 353 104. Any notification by telephone must also be confirmed in writing within seven (7) business days of the telephone call.

Other conditions

No other conditions applicable

cease to take - Cease to take conditions means any condition on this approval, or on the access licence under which water is proposed to be taken, that prohibits the taking of water in a particular circumstance.

domestic consumption - Domestic consumption is the use of water for normal household purposes in domestic premises situated on the land.

full capacity - Full capacity means the volume of water that is impounded in the pool, lagoon or lake when the pool, lagoon or lake is at the level when a visible flow out of that pool, lagoon or lake would cease.

in-river pool - An in-river pool is a natural pool, lagoon or lake that is within a river or stream (regardless of stream size) and excludes:

- a pool that is on a flood-runner or floodplain, or
- a pool that is on an effluent that only commences to flow during high flows.

logbook - A logbook is a document, electronic or hard copy, that records specific required information.

metered water supply work - A metered water supply work is a water supply work fitted with a data logger and a water meter that complies with Australian Standard AS 4747: Meters for non-urban water supply.

off-river pool - An off-river pool means a natural pool, lagoon or lake that:

- A. is not within a river or stream (regardless of stream size), or
- B. is on a flood-runner or floodplain, or
- C. is on an effluent that only commences to flow during high flows.

share component - The share component is the specified shares in the available water within a particular water management area.

stock watering - Stock watering is the use of water for stock animals being raised on the land. It does not include the use of water for the raising of stock animals on an intensive commercial basis (kept in feedlots or buildings for all, or a substantial part, of the period during which the stock animals are being raised).

water year - A water year starts on 1 July and ends on 30 June in the following year.

General Notes

All conditions on a water access licence require compliance. An appeal to the Land and Environment Court against a decision to impose certain conditions on an approval can be made within 28 days after the date the decision is made. Conditions identified with the first letter "D" are those that can be appealed during the appeal period.

Certain dealings and other matters relating to this water access licence or a holding in this water access licence must be registered in the Access Register in accordance with section 71A of the *Water Management Act 2000*. For information about the Access Register, contact Land and Property Information (<http://www.lpi.nsw.gov.au>).
