

**WASTE MANAGEMENT PLAN | SECTION 1 - DEMOLITION**

|                           | REUSE                    | RECYCLING                | DISPOSAL                 |  |
|---------------------------|--------------------------|--------------------------|--------------------------|--|
| Type of Waste Generated   | Volume (m <sup>3</sup> ) | Volume (m <sup>3</sup> ) | Volume (m <sup>3</sup> ) | Method of Onsite Re-use, contractor and recycling outlet and/or waste depot to be used |
| Excavation Material       |                          |                          |                          | Nil  |
| Timber                    |                          | 4.0 m <sup>3</sup>       |                          | Reuse of timber onsite and excess will be recycled at Ophir Road Recovery Centre.      |
| Concrete                  |                          |                          |                          | Nil.   |
| Bricks / Pavers           |                          |                          | 5.0 m <sup>3</sup>       | Painted bricks and internal bricks will be disposed of at Ophir Road Recovery Centre.  |
| Tiles                     |                          |                          |                          | Nil.   |
| Metal                     |                          |                          |                          | Nil.   |
| Glass                     |                          |                          | 1.0 m <sup>3</sup>       | Recycling of Glass at Ophir Road Recovery Centre.                                      |
| Furniture                 |                          |                          |                          | Nil  |
| Fixtures and Fittings     |                          |                          |                          | Nil  |
| Floor Coverings           |                          |                          |                          | Nil.   |
| Packaging                 |                          |                          |                          | Nil  |
| Garden Organics           |                          |                          |                          | Nil  |
| Hazardous / Special Waste |                          |                          |                          | Nil  |
| Others                    |                          |                          |                          | Nil  |

WASTE MANAGEMENT PLAN | SECTION 2 - CONSTRUCTION

|                              | REUSE              | RECYCLING          | DISPOSAL           |  |
|------------------------------|--------------------|--------------------|--------------------|--|
| Type of Waste Generated      | Volume (m3)        | Volume (m3)        | Volume (m3)        | Method of Onsite Re-use, contractor and recycling outlet and/or waste depot to be used |
| Excavation Material          | 2.0 m <sup>3</sup> |                    |                    | Reuse on site where possible   |
| Timber                       |                    | 1.0 m <sup>3</sup> |                    | Recycling at Ophir Road Resource Recovery Centre                                       |
| Concrete                     |                    |                    |                    | Nil  |
| Bricks / Pavers              |                    |                    |                    | Nil  |
| Tiles                        |                    |                    |                    | Nil  |
| Metal                        |                    | 0.1 m <sup>3</sup> |                    | Recycling at Ophir Road Resource Recovery Centre                                       |
| Glass                        |                    |                    |                    | Nil  |
| Plasterboard (offcuts)       |                    |                    | 0.6 m <sup>3</sup> | Disposal to Ophir Road Resource Recovery Centre  |
| Fixtures and Fittings        |                    |                    |                    | Nil  |
| Floor Coverings              |                    |                    | 0.2 m <sup>3</sup> | Disposal to Ophir Road Resource Recovery Centre  |
| Packaging                    |                    |                    | 1.5 m <sup>3</sup> | Disposal to Ophir Road Resource Recovery Centre  |
| Garden Organics              |                    |                    |                    | Nil  |
| Containers (Cans, Glass etc) |                    |                    | 0.3 m <sup>3</sup> | Disposal to Ophir Road Resource Recovery Centre  |
| Paper / Cardboard            |                    |                    | 0.3 m <sup>3</sup> | Disposal to Ophir Road Resource Recovery Centre  |
| Residual Waste               |                    |                    | 1.5 m <sup>3</sup> | Disposal to Ophir Road Resource Recovery Centre  |

---

**WASTE MANAGEMENT PLAN | SECTION 3 – ONGOING USE**

---

The property will be serviced by regular Council Waste Collection Services. The site is sufficiently sized to adequately accommodate all waste receptacles out of view from the street
