

**Site 1: Discharge quality monitoring from Sedimentation Dam No. 2**

Date Sampled	Date Obtained	Date Published	pH (pH units)	O&G	TSS	Turbidity*
				(mg/L)	(mg/L)	NTU
100%ile limit			6.5-8.5	<10	<50	<40
No discharge occurred during January 2021						
No discharge occurred during December 2020						
No discharge occurred during November 2020						
No discharge occurred during October 2020						
8-Sep-20	16-Sep-20	25-Nov-20	7.78	5	10	16.5
No discharge occurred during August 2020						
No discharge occurred during July 2020						
No discharge occurred during June 2020						
No discharge occurred during May 2020						
No discharge occurred during April 2020						
No discharge occurred during March 2020						
No discharge occurred during February 2020						
No discharge occurred during January 2020						
No discharge occurred during December 2019						
No discharge occurred during November 2019						
No discharge occurred during October 2019						
No discharge occurred during September 2019						
No discharge occurred during August 2019						
No discharge occurred during July 2019						
No discharge occurred during June 2019						
No discharge occurred during May 2019						
No discharge occurred during April 2019						
No discharge occurred during March 2019						
No discharge occurred during February 2019						
No discharge occurred during January 2019						
No discharge occurred during December 2018						
No discharge occurred during November 2018						
No discharge occurred during October 2018						
No discharge occurred during September 2018						
No discharge occurred during August 2018						
No discharge occurred during July 2018						
No discharge occurred during June 2018						
No discharge occurred during May 2018						
No discharge occurred during April 2018						
No discharge occurred during March 2018						
No discharge occurred during February 2018						
No discharge occurred during January 2018						
No discharge occurred during December 2017						
No discharge occurred during November 2017						
No discharge occurred during October 2017						
No discharge occurred during September 2017						

No discharge occurred during August 2017				
No discharge occurred during July 2017				
No discharge occurred during June 2017				
No discharge occurred during May 2017				
No discharge occurred during April 2017				

*\*Turbidity included as a required monitoring parameter November 2017*

Date Sampled	Date Obtained	Date Published	pH (pH units)	O&G (mg/L)	SS (mg/L)
100%ile limit			6.5-8.5	<10	<50
No discharge occurred during March 2017					
No discharge occurred during February 2017					
No discharge occurred during January 2017					
No discharge occurred during December 2016					
No discharge occurred during November 2016					
No discharge occurred during October 2016					
No discharge occurred during September 2016					
No discharge occurred during August 2016					
No discharge occurred during July 2016					
No discharge occurred during June 2016					
No discharge occurred during May 2016					
No discharge occurred during April 2016					
No discharge occurred during March 2016					
No discharge occurred during February 2016					
No discharge occurred during January 2016					
No discharge occurred during December 2015					
No discharge occurred during November 2015					
No discharge occurred during October 2015					
No discharge occurred during September 2015					
No discharge occurred during August 2015

No discharge occurred during January 2015					
No discharge occurred during December 2014					
No discharge occurred during November 2014					
No discharge occurred during October 2014					
No discharge occurred during September 2014					
No discharge occurred during August 2014					
No discharge occurred during July 2014					
No discharge occurred during June 2014					
No discharge occurred during May 2014					
No discharge occurred during April 2014					
No discharge occurred during March 2014					
No discharge occurred during February 2014					
No discharge occurred during January 2014					

*Frequency is monthly during discharge during controlled release*

<b>Data table abbreviations</b>	
O&G	Oil and Grease
TSS	Total Suspended Solids
mg/L	milligrams per litre
NTU	Nephelometric Turbidity Unit
