

**DIGITAL BUSINESS
PROJECT**

Create a vibrant, online presence for your business with help from Orange City Council and Central NSW Business HQ.

HOW DOES IT WORK?

Council wants to help all businesses in the central business district (CBD) take advantage of the opportunities online shopping provides.

Central NSW Business HQ and Council will work with you to create a functional, modern website, with the option to include facilities to enable you to sell products online. Central NSW Business HQ will also help CBD businesses set up a Google My Business page, making it much easier for customers to find your business.

We're offering you a free website with;

1. Home page
2. About us page
3. Contact us page
4. Listing of the products or services.

There is also an option to include 'e-commerce' facilities allowing your customers to buy directly from your business website.

Local website designers, photographers and content writers will help you create your own website that you will be able to update and manage yourself once it's established.

This base level of service is provided to you by Orange City Council, at no cost to you.

If this sounds like something you think your business could benefit from, please call Council's Manager Business Development Sharon D'Elboux on 63938211 or email sdelboux@orange.nsw.gov.au
